Thanks! I kept telling them that you told us that they lived on site but they just couldn't wrap their head around it.

Subject: Hope Iron & Metal Clarification

Nic,

ATSDR is requesting clarification on the exact location of the (b) (6) family residence at the Hope Iron and metal site. Since I have not been there I am unable to answer the question adequately for them. "Sorry, but this is still unclear to me. Residences are labeled outside the site boundary, however, I can unable to determine where the on-site residence is located. Are the residents of concern actually on the property or possibly just outside the front entrance?" We are getting close to having this finalized.

Chris
